# WELCOME TO THE FREEDOM CATALOGUE

---

Anarchism is almost certainly the most interesting political movement to have slipped under the radar of public discourse.

It is rarely pulled up in today's media as anything other than a curio or a threat. But over the course of 175 years since Pierre-Joseph Proudhon's declaration "I am an anarchist" this philosophy of direct action and free thought has repeatedly changed the world.

From Nestor Makhno's legendary war on both Whites and Reds in 1920s Ukraine, to the Spanish Civil War, to transformative ideals in the 1960s and street-fought antifascism in the 1980s, anarchism remains a vital part of any rounded understanding of humanity's journey from past to present, let alone the possibilities for its future.

For most of that time there has been Freedom Press. Founded in 1886, brilliant thinkers past and present have published through Freedom, allowing us to present today a kaleidoscope of classic works from across the modern age.

Featuring books from Peter Kropotkin, Marie Louise Berneri, William Blake, Errico Malatesta, Colin Ward and many more, this catalogue offers much of what you might need to understand a fascinating creed.
